

GENERAL ENGINEERING TECHNOLOGY (GET)

GET 1500 – Special Topics in Engineering Technology

1-10 Credit hours

Provides the student with the opportunity for in-depth work on a special topic within some field of engineering technology for which the student is not able to pursue in depth from regular course offerings. The subject matter must be closely related to the student's major course of study in engineering technology. The student is required to approve the course outcomes with the department chair or division dean in similar fashion to independent studies (see descriptions of EET, ENV, FMS, MED, MET, or QET-1990 for details). The course is sometimes used as a credit transfer mechanism for applicable courses or work experiences closely related to a student's major course of study.
