Ransomware. Network breaches. Vulnerable infrastructure. Sometimes, we feel as if nothing can be done about these cybercriminals. In the Network Security program, we do something. We learn what the bad guys do and how to stop them. We will look at the ways they criminals work, and we learn the best practices to prevent them from gaining access to our networks.

Network Security Major

Technical Standards

See here for details.

Freshman

First Semester		Hours
CPT 1705	Cisco I - CCNA	3
CPT 1715	Cisco II - CCNA	3
Term Hours		6
