The Associate Degree Nursing program is designed for qualified men and women interested in providing patient care as members of the health team. The curriculum is a blend of general education, basic education/applied education, and nursing technical courses providing graduates with the skills necessary to competently and safely care for patients and their families.

Various community healthcare settings are utilized for students to apply the nursing process in identifying and meeting the needs of patients. A nursing laboratory and a simulation laboratory contain equipment for practicing skills and provide settings for independent study as well as instructor-supervised study. Graduates of the program receive an Associate of Applied Science Degree and are eligible to take the national licensing examination (NCLEX-RN) to become a Registered Nurse. Upon licensure, the RN is able to work in acute care, long-term care, and community healthcare agencies to apply competent patient-centered nursing care. The RN will be able to provide collaborative evidence-based care through principles of quality and safety and informatics.

The Associate Degree Nursing Program is approved by the Ohio Board of Nursing (OBN), 17 S. High St., Suite 660, Columbus, Ohio 43215, (614) 466-3947, <https://nursing.ohio.gov/>; and continuing accreditation by the Accreditation Commission for Education in Nursing (ACEN), Inc., 3390 Peachtree Road, NE, Ste. 1400, Atlanta, GA 30326, (404) 975-5000; email: info@acenursing.org; website: <http://www.acenursing.org>.

Mission Statement

The Associate Degree Nursing Education Program serves to change lives, build futures, and improve communities by providing an opportunity for students with diverse learning needs to obtain an affordable, quality entry-level professional nursing education, and thereby, meet the community's need for nurses.

Program Learning Outcomes

Upon graduation, students will be able to:

- Prioritizes factors to promote patient-centered care.
- Evaluates the interprofessional teamwork approach in achieving quality patient care.
- Synthesizes Evidence-Based Practice (EBP) while providing patient care.
- Critiques interventions to promote quality and safety in patient care.
- Adapts the tools of technology to communicate effectively, manage knowledge, mitigate error and support decision making.

Additional Information

Students will be assigned to day or evening or weekend clinical experiences in the Nursing Programs {Associate Degree Nursing (ADN),

Practical Nursing (PN), LPN to ADN Transition}. Specific qualification information for each nursing program is found within the program sections. Any questions pertaining to these criteria should be directed to the Office of Advising or to the Nursing office.

Some students may choose to extend their course of study beyond the recommended plan due to academic deficiencies, employment commitments, or personal choice. If a student chooses to extend their course of study, it is the student's responsibility to notify the Nursing office.

Admission or Reentry for Clinical Placement

Students seeking admission or reentry into a nursing clinical course will be reviewed and a decision made by the Program Administrator (or designee) and faculty based on space-availability and the following criteria (see the Associate Degree Nursing Admission Requirements for detailed admission criteria):

- Rhodes State College students in good standing and those that meet admission or reentry requirements for the nursing program may be permitted to register for the appropriate Nursing course.
- Transfer students in good standing and those that meet admission requirements may be permitted to register for the appropriate Nursing course.
- Admission or reentry may or may not be granted based upon review of qualifying data, including GPA requirements.
- Science courses must be completed within the previous five-years (exceptions may be granted by the Program Administrator).
- Students who are out one year or more from a Nursing Clinical course are evaluated on an individual basis to ensure competency in previous coursework. Contact the Nursing office for additional information.

The availability of space will not be known until grades have been reported for the term immediately preceding the desired term of reentry. Students will be notified of placement in time to register if space is available.

Pursuant to the Ohio Revised Code 4723 and rule 4723-5-12 of the Ohio Administrative Code, students who reenter or are readmitted to an Ohio school of nursing must "meet the curriculum requirements effective at the time of readmission."

Associate Degree Program Completion

The student is expected to complete the clinical nursing coursework within three years of beginning the first semester of the nursing clinical program.

Technical Standards

See here for details.

Tech Prep Partner

See here for details.

"C" grade policy

- A minimum "C" (2.0) grade policy is required for graduation.
- A grade of "C" or higher must be achieved in all courses carrying the specific program prefix such as DHY, EMS, MAT, NSG, OTA, PNS, PTA, RAD, RES and SRG.

- All programs and certificates require a grade of "C" (2.0) or better in required science courses and in required basic/related health science (BHS) courses as well as in selected general education and basic/related science courses (see program requirements).

All of the following required coursework needs to have been completed within five years of matriculation into a Health Sciences program or certificate.

Code	Title	Hours
BIO 1000		3
BIO 1110	(The age requirement may be waived by the Program Chair or Coordinator if the applicant is currently working in a healthcare field.)	4
BIO 1120	(The age requirement may be waived by the Program Chair or Coordinator if the applicant is currently working in a healthcare field.)	4
BIO 1400		4
BHS 1390		2
BHS 2110		2
CHM 1120		4
DTN 1220		2
NSG 1721		2

Criminal Background Checks and Drug Screening

To meet the expanding requirements of our clinical affiliates, both a criminal background check and a drug screen will be mandatory prior to clinical experiences for most students within the Division of Health Sciences and Public Service. Some program exceptions may apply.

You are at risk if you have been convicted of a prior felony and/or some misdemeanors. Students with certain felony, misdemeanor, or drug-related convictions will be ineligible for admission into clinical experiences. A criminal record may also prevent you from obtaining a license or certificate in your chosen healthcare profession or to obtain employment post-graduation. Students admitted to a program containing off-campus clinical/practicum experiences will be required to submit to drug screening. Positive drug screenings may result in dismissal from all clinical courses. Any student who refuses/fails to cooperate, or complete any required drug screening will be considered "positive" and dismissed from the clinical component of their program. All students requiring drug screening may be subject to random drug screens and for cause during the program.

Recommended High School Coursework

Students are encouraged to complete college prep classes in high school. Although not required, the courses provide a better understanding of college-level work. Recommended college prep courses include:

English: 4 units

Math: 4 units

Natural Science: 3 units

Social Science: 3 units

Health Insurance

The Division of Health Sciences and Public Services is committed to protecting students, faculty, and patients from infectious diseases during clinical practice and taking every reasonable precaution to provide a safe educational and work environment. All new students entering the

health-related programs will be informed of the risks of blood-borne and other infectious diseases. Students with a high risk of infectious diseases should be aware of their own health status and risk of exposure to other students, employees, or patients involved in the clinical environment. All students are required to provide their own health insurance coverage for the duration of their program and be able to provide proof of insurance if requested.

Nursing

Associate of Applied Science Registered Nursing Program Sequence

Pre-requisite Semester

BHS 2110	Growth and Development: Lifespan	2
BHS 2120	Introduction to Nursing	2
or NSG 1990	or Independent Study in NSG

Total Hours **65**

 The ePortfolio requirement has been phased out and the ePortfolio indicators are being removed from the site.

 Capstone Course

See here for Capstone information.

Note: Students may elect to take general education courses and sciences prior to beginning the first nursing clinical course.

Acceptance Requirements

All Acceptance Requirement Criteria including Nursing Technical Standards must be met for entrance into the Associate Degree Nursing (ADN) program.

Criteria

- a. General College requirements (see General Admissions Procedures.)
- b. Must be remediation free in math, English, reading, and science.
- c. Completion of Pre-requisite nursing semester (see Academic Plan). BHS-2110 and BIO-1110 must be successfully completed within five years and BHS-2120 within two years of program entry. Age review may be requested by the student to the Program Administrator if the student is currently working in a healthcare field.
- d. Must be 18 years old before the first Nursing Clinical course begins.
- e. College cumulative GPA of 2.5 or higher.
- f. Certificate of completion of state-approved nurse aide training course.
- g. Declaration of Nursing as the major course of study.

Additional Requirements upon acceptance into the Nursing Program

- a. Evidence of sufficient physical and mental health to engage in the practice of nursing.
- b. Current American Heart Association CPR Certification (BLS Healthcare Provider).
- c. Completed health and immunization form.
- d. Criminal background check.
- e. Drug screening.
- f. Nursing Orientation.
